

ENCORA
CYBER SECURITY
2023 PORTFOLIO

What Encora **can offer** you.

Our mission is to **help you protect your systems** properly.

We offer specialized professional services and **cover all levels of business protection.**

“Each Spanish company receives an **average of 66 cyber-attacks** per year, causing **millions in losses**”

Full Protection

- ✓ Implementation of perimeter **firewalls, SD-WANs and VPNs.**
- ✓ **State-of-the-art** endpoint and server protection.
- ✓ **Anti-spam, anti-phishing** and URL protection.
- ✓ User **training and awareness-raising.**
- ✓ Protection of **corporate digital identity.**
- ✓ Integration of **two-factor authentication.**

Encora Prevent.

Threat protection solutions.

Encora helps you implement the right solutions for **your needs** and get the most out of every technology in **your infrastructure**.

We also perform **vulnerability analysis**, ethical hacking and pentesting tests.

Encora **Response.**

Incident response solutions.

Encora helps you to audit any threat produced in your environment. We carry out a complete **forensic audit** in which you will be able to see how the threat was produced and what to do to **prevent it from happening again.**

Encora Managed **Detection & Response.**

Full managed service, including Prevent and Response content in a **tailor-made service**.

We work as an extension of your IT department, bringing our **value** and **knowledge** to your corporation.
